Cleveland Botanical Garden Transforms Vacant Property Using Green Methods to Reduce Runoff

Groundwork Lawrence Works to Restore the Spicket River in Massachusetts

Pennsylvania Horticultural Society Creates Green Job Training Program

Prescott Creeks Preservation Association Restores Granite Creek Watershed

University of Nebraska – Lincoln Develops New Tools to Reduce Runoff

“We find the Research Brief series so useful that I save and catalog each one as part of the monthly new additions to the California Water Boards’ Joint Intranet Technical Library. I put out the new-additions e-mail (which goes to a large fraction of Water Board staff, statewide) at the beginning of the month, after receiving your e-mail.”

Ed Wosika, Assoc. Eng. Geologist; Land Disposal Unit; California State Water Resource Control Board
Urban Waters Federal Partnership Works to Restore and Increase Access to the Los Angeles River
